

THE GREENS
AT COLUMBIA

THE GREENS *is right where you want to be.*

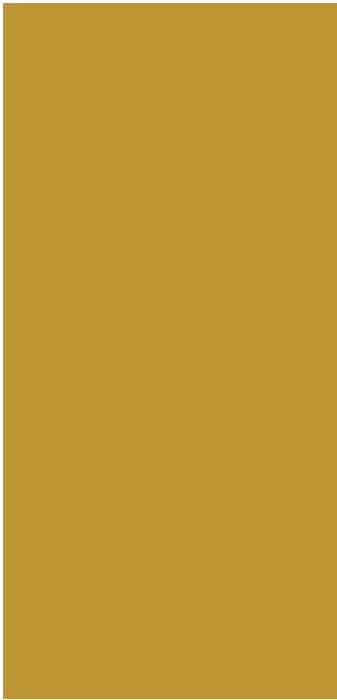

In a perfect world, you would choose an apartment close to both Baltimore and Washington. Your home would be spacious,—with upscale touches and luxury options such as garden porches, lofts, and fireplaces. Your community would be quiet, with distinguished architecture, lush landscaping, and signature stone sculptures. It would complement your lifestyle with a large pool and recreational opportunities.

You don't often find everything you want in an apartment, but you don't often come across a community like The Greens at Columbia.

The Greens is located in the heart of the Baltimore-Washington corridor, yet tucked away on its own 10-acre campus in Columbia. Choose from five different floor plans—including some of the largest in the area—to satisfy your every need. Many include extras you don't often find in apartments such as private entry foyers, eat-in kitchens, and oversized bathrooms. Our location is just 10 minutes from major highways and with easy access to the Mall and other Columbia amenities. Our concierge and business services cater to on-the-go lifestyles.

It is simply the ideal living experience for busy professionals.

It's time to see where you want to be.
